Before you read

> This Scroll was **written by AI from traditional saju rules**, for entertainment and self-reflection. A calculator worked out every pillar, date, level and score from your birth details; the AI wrote the words and was checked against those numbers. No human fortune-teller wrote it. It makes no promises about the future and is not medical, legal or financial advice.

Each line ends with a small **Rule**: the traditional rule it comes from, in plain words. Saju describes tendencies and timing; you decide what to do with them.

Words you will meet

Core sign	the top character of your day pillar: "you" in the chart (Day Master).
Useful element	the one element that balances your chart best.
Harmony / half-join	two characters that pull together and cooperate.
Clash	two characters on opposite sides: change or restlessness.
Tension / quiet friction	small rubs that repeat until you talk them through.
Roles	Companion and Rival-Friend = people like you; Maker and Performer = what you put out; Steward and Dealmaker = money; Officer and Challenger = duty and pressure; Mentor and Hermit-Scholar = support and study.

Your chart, in plain words

命

Maya, your free chart told you who you are in one line. This Scroll looks at how the eight characters from 21 August 1994, 07:40, Toronto, work on each other, and what that means for your next years. Every line names the traditional rule it comes from.

Your eight characters

	Hour	Day · you	Month	Year
Sky (top)	丁 Yin Fire Hermit-Scholar	己 Yin Earth You	壬 Yang Water Steward	甲 Yang Wood Officer
Earth (bottom)	卯 Rabbit · Wood Challenger	卯 Rabbit · Wood Challenger	申 Monkey · Metal Performer	戌 Dog · Earth Rival-Friend

Hour — plans and later years. Top: Hermit-Scholar. Bottom: Rabbit, mainly Challenger.

Day · you — you and your partner. Top: your core sign. Bottom: Rabbit, mainly Challenger.

Month — work and daily life. Top: Steward. Bottom: Monkey, mainly Performer.

SAMPLE

Year — family and roots. Top: Officer. Bottom: Dog, mainly Rival-Friend.

Roles (the Ten Gods, 十神): Companion and Rival-Friend = peers; Maker and Performer = expression; Steward and Dealmaker = money; Officer and Challenger = duty; Mentor and Hermit-Scholar = support.

A quick reminder

As a quick anchor: 己, the Garden Soil, balanced by Fire. In your chart three Wood press on two Earth, and a single Fire stands between them: Wood feeds Fire, and Fire feeds Earth. That one Fire is what turns pressure into support. Below is what the free chart did not show.

Rule · Strength: under 45% support reads as gentle; useful element (用神): Fire feeds Earth; Wood controls Earth (相剋), Wood feeds Fire and Fire feeds Earth (相生).

Two Rabbits and one candle

Your day and hour pillars both sit on a Rabbit, and each Rabbit holds the Challenger for you. Your hour pillar also holds your only Fire, the 丁 on top. In daily life that is a picture of pressure arriving in pairs, and one small, steady flame turning it into skill. When that flame is fed (a teacher, a warm friend, rest), the pressure tends to turn into skill you can show, like a degree or a promotion.

Rule · 卯 holds 乙, the Challenger (七殺) for 己, in the day and hour pillars; 丁 in the hour pillar is the Hermit-Scholar (偏印); pattern 殺印相生: the Challenger fed into a Support star.

The Dog that holds it together

The Dog in your year pillar makes a harmony with both Rabbits. Your roots, your closest relationship and your later plans are tied together: cooperation comes naturally in all three. You tend to do best when family, partner and long-term plans pull in the same direction, and you feel it sharply when they do not.

Rule · Harmony 戌卯 (合), appearing twice: year, day and hour pillars, touching family, your partner and later years.

SAMPLE

Drawn to structure

Your core sign 己 pairs with the 甲 on top of your year pillar. For you 甲 is the Officer: structure, rules and reputation. The chart reads a natural bond between you, your family and the wider world; structure and clear rules tend to steady you.

Rule · Your core sign pairs 甲己 (天干合) with the year pillar; 甲 is the Officer (正官) for 己.

Work and later plans in alliance

Your month pillar's 壬 (the Steward, steady income) and your hour pillar's 丁 (the Hermit-Scholar, deep learning) are drawn to each other. What you study tends to feed what you earn, and the other way round. Plans that join the two, such as training that leads to better pay, suit your chart.

Rule · Upper harmony 壬丁 (合) between the month and hour pillars; 壬 is the Steward (正財), 丁 the Hermit-Scholar (偏印) for 己.

Your three stars

Three traditional stars sit in your chart. The Nobleman in your month pillar: for your master's plan, that may be a supervisor, a former manager or an admissions contact who opens a door. Peach Blossom in your day and hour pillars: people notice you. The Travelling Horse in your month pillar: moves, travel and changes of scene keep coming up.

Rule · Stars: Nobleman in the month pillar, Peach Blossom in the day and hour pillars, Travelling Horse in the month pillar.

YOUR GIFT

Your one Fire sits in the hour pillar, the spot for later years and private plans: the warmth you protect for yourself is what lets the two Rabbits sharpen you instead of wearing you down.

Rule · 殺印相生: the Challenger (七殺) fed into a Support star (印).

SAMPLE

YOUR TRAP

With two Challengers and only one Fire, you can take on other people's pressure as if it were your job, and forget to feed the flame.

Rule · Two 卯 with the Challenger (七殺) against one 丁 Fire; strength under 45% reads as gentle.

TRY THIS

This week, name the one person who warms you up and put a short visit with them in your calendar.

Rule · Useful element Fire: a gentle core sign is balanced by what feeds it.

Your ten-year chapters

運

Your life moves in ten-year chapters. Each chapter puts a new pair of characters over your birth chart, like weather over a garden.

you are here

辛未	庚午	己巳	戊辰	丁卯	丙寅	乙丑	甲子
5–14	15–24	25–34	35–44	45–54	55–64	65–74	75–84
1999	2009	2019	2029	2039	2049	2059	2069

Ages and start years of each ten-year chapter. A dot marks chapters that carry your useful element (Fire).

SAMPLE

THIS CHAPTER BEGAN
2019
己巳, ages 25–34

NEXT CHAPTER BEGINS
2029
戊辰, from age 35

You are 32, in the last years of your 己巳 chapter, which runs from 2019 to 2028 (ages 25 to 34). Your next chapter, 戊辰, begins in 2029, at 35.

庚午

Ages 15–24 (2009–2018): the Performer, warmed

This chapter put the Performer on top: the urge to question how things are usually done and to say it out loud. Underneath, the Horse carried Fire, your useful element. A chapter like this tends to bring strong opinions and warm teachers or places. Does that sound like your teens and early twenties?

Rule · 庚 is the Performer (傷官) for 己; 午 holds 丁 Fire, the Hermit-Scholar (偏印), and carries the useful element.

己巳

Ages 25–34 (2019–2028): your own ground, warmed

now

Your current chapter puts 己 on top, the same character as your core sign: the Companion, a decade for standing on your own feet. Underneath, the Snake holds 丙, Fire, as the Mentor: backing,

SAMPLE

teachers, people who care. It is a decade that carries Fire, the element that balances you. Its last stretch, through 2028, tends to suit finishing what you have started.

Rule · 己 is the Companion (比肩); 巳 holds 丙 Fire, the Mentor (正印), and carries the useful element.

戊辰

Ages 35–44 (2029–2038): more hands on the same field

Your next chapter brings 戊 on top and the Dragon below, both the Rival-Friend: more partners, colleagues and friendly competition around the same resources. The Dragon also makes a quiet friction with the Rabbit in your day pillar, the spot for your partner. Clear agreements about money and roles tend to protect both your work and your home in this chapter.

Rule · 戊 and 辰 are the Rival-Friend (劫財) for 己; 辰 and 卯 make a harm (害) with your day branch.

Rule · Ten-year luck chapters (大運): counted from the month pillar, forward or backward by birth sex and year polarity; the start age comes from the days between birth and the nearest solar term (3 days = 1 year).

YOUR GIFT

Your current chapter carries Fire, one of your lightest elements and the one that balances you. You are in a decade that carries what you need.

Rule · 己巳 carries the useful element (巳 holds 丙 Fire).

YOUR TRAP

丙 Fire, the Mentor, sits inside this chapter's Snake, so help tends to come through teachers and older allies. The trap is keeping that help informal: the 戊辰 chapter from 2029 brings the Rival-Friend, so any shared plan started now is safer with terms in writing before then.

Rule · Current chapter 己巳: Companion (比肩) + Mentor (正印); next chapter 戊辰 from 2029.

SAMPLE

TRY THIS

Before 2028 ends, choose the one project you want to carry into your next chapter, and write down who will share it with you and on what terms.

Rule · Next chapter 戊辰 (Rival-Friend 劫財) begins in 2029.

3

Your 2027, month by month

曆

The chart reads 2027, the Fire Goat, as a warm year for you: its top character is Fire, your useful element, as the Hermit-Scholar, and its Goat half-joins the Rabbit in your day pillar. The year as a whole reads high for work, love and energy, and good for money. Here it is month by month. The dots are the engine's levels; the words show what to do with them.

Before 2027: the rest of this year

November 2026

己亥 · from 8 Nov

Money	●●●○○	Work	●●●○○
Love	●●●●○	Energy	●●○○○

Close ties feel easy this month: the Pig half-joins your day branch. Money chances may appear, but they cost energy. Do the work beside someone rather than alone, and pick one plan and let the others wait.

Rule · 亥 half-joins 卯 (半合); Money stars (財) arrive, but a gentle core sign has to work hard to hold them.

SAMPLE

December 2026

庚子 · from 8 Dec

Money	●●●○○	Work	●●●●○
Love	●●●○○	Energy	●●○○○

The Performer on top: a month to show your work. The Rat makes a tension with your day branch, so be patient at home. Show one finished thing before the holidays, and keep the rest light.

Rule · Expression stars (食傷): a month to show your work; 子 and 卯 make a tension (刑).

2027

Jul
BEST MONTH

July is your strongest month of 2027. It repeats the year's own Fire Goat, so the chart reads its warmth and support as strongest here, and work, love and energy all read at the top. Put your most important step here.

Rule · Highest total of the twelve months: the month carries your useful element (Fire), Support stars (印), and a half-join (半合) with your day branch.

Key: ●●●○○ = level 3 of 5 · Money, Work, Love, Energy (rest & pace)

January

辛丑 · from 6 Jan

Money	●●●○○	Work	●●●●○
Love	●●●○○	Energy	●●○○○

Make it, then rest

The Maker month: work flows out of you easily. A gentle core spends energy fast, so plan a quiet evening for every busy day.

✓ **Do:** Send the piece of work you are proudest of to one person who can open a door, such as a professor or a manager.

✕ **Avoid:** Covering a colleague's deadline on top of your own.

Rule · Expression stars (食傷): a month to show your work; a gentle core sign spends energy on this month's demands.

SAMPLE

February

壬寅 · from 5 Feb

Money	●●●○○	Work	●●○○○
Love	●●●●○	Energy	●○○○○

A heavy month: keep it simple

Money and duty stars both arrive, and the Tiger clashes your month pillar, the spot for work and routine, so plans may be rearranged. Energy is among your lowest of the year: protect sleep.

✓ **Do:** Keep February for finishing current work, and draft your master's application quietly.

✕ **Avoid:** Agreeing to a new side project before this month ends.

Rule · The month's branch clashes your month pillar (沖); Duty stars (官殺) bring responsibility that costs a gentle core sign energy.

March

癸卯 · from 7 Mar

Money	●●●○○	Work	●●●○○
Love	●●●●●	Energy	●○○○○

Charm high, energy low

A Peach Blossom month: people notice you and invitations arrive. The Challenger returns too, and energy stays low, so build on what already works.

✓ **Do:** Research the city you might move to, without deciding yet.

✕ **Avoid:** Filling every free evening with plans.

Rule · Peach Blossom (桃花) month: charm and invitations; 卯 holds the Challenger (七殺).

SAMPLE

April

甲辰 · from 6 Apr

Money	●● ○ ○ ○	Work	●●● ○ ○
Love	●●● ○ ○	Energy	● ○ ○ ○ ○

Share the load, not the wallet

Your gentlest month of 2027. The Rival-Friend stirs shared costs, and the Dragon rubs quietly against your day branch. Work beside others, with clear terms.

✓ **Do:** Ask one colleague to split a big task with you.

✕ **Avoid:** Paying a shared deposit, for a flat or a trip, before the terms are written down.

Rule · The Rival-Friend (劫財) traditionally takes from your money; 辰 and 卯 make a quiet friction (害).

May

乙巳 · from 7 May

Money	●●●● ○	Work	●●●●●
Love	●●●●●	Energy	●●● ○ ○

Fire returns: learn something

The Snake brings Fire, your useful element, and the Mentor. Teachers and courses come easier. Work runs high, so keep commitments few.

✓ **Do:** Send the application, or book a first short course.

✕ **Avoid:** Agreeing to lead a project in the same month you start studying.

Rule · The month carries your useful element (Fire); Support stars (印) back a core sign that needs backing.

SAMPLE

June

丙午 · from 7 Jun

Money	●●●●○	Work	●●●●●
Love	●●●●○	Energy	●●●●●

Warm, rested and backed

The Horse brings double Fire: support, learning and real rest. One of your most balanced months. Let people help you without paying them back straight away.

✓ **Do:** Give a free Saturday to a course, a library or a mentor.

✕ **Avoid:** Letting the study plan slide because the month feels easy.

Rule · The month carries your useful element (Fire); Support stars (印): rest and being looked after come easier.

July

丁未 · from 8 Jul

Money	●●●●○	Work	●●●●●
Love	●●●●●	Energy	●●●●●

Your best month: commit to the learning

Fire on top, and the Goat half-joins your day branch, the spot for your partner and home. Work, love and energy all read at the top.

✓ **Do:** Accept your offer or start a prep course for the programme, and tell Daniel the date.

✕ **Avoid:** Postponing it to a "better" month; the chart reads this as the better month.

Rule · The month carries your useful element (Fire); 丁 is the Hermit-Scholar (偏印); 未 half-joins 卯 (半合).

SAMPLE

August

戊申 · from 9 Aug

Money	●● ○ ○ ○	Work	●●●● ○
Love	●●● ○ ○	Energy	●● ○ ○ ○

Show your work, guard your money

The Performer returns: pitch ideas and question old ways. The Rival-Friend on top asks you to keep money matters clear with friends.

✓ **Do:** Pitch the idea you have been holding back at work.

✕ **Avoid:** Splitting a bill with friends without a clear agreement.

Rule · 申 holds the Performer (傷官); 戊 is the Rival-Friend (劫財), which traditionally takes from your money.

September

己酉 · from 9 Sep

Money	●●● ○ ○	Work	●●●● ○
Love	● ○ ○ ○ ○	Energy	● ○ ○ ○ ○

Steady at work, careful at home

The Rooster clashes the Rabbit in your day pillar, the spot for home and partner, so home may feel restless and energy runs low. Your work, though, flows.

✓ **Do:** Present one finished project to your team or class.

✕ **Avoid:** Signing a lease or deciding a move this month.

Rule · The month's branch clashes (沖) your day branch; Expression stars (食傷): a month to show your work.

SAMPLE

October

庚戌 · from 9 Oct

Money	●● ○ ○ ○	Work	●●●● ○
Love	●●●●●	Energy	●● ○ ○ ○

A month for the important talk

The Dog makes a harmony with your day branch: closeness comes easily. The Rival-Friend sits in the Dog too, so keep shared money simple.

✓ **Do:** Have the honest talk with Daniel about next year's plans.

✗ **Avoid:** Lending a large amount, even to someone close.

Rule · The month's branch makes a harmony (六合) with your day branch; 戌 holds the Rival-Friend (劫財).

November

辛亥 · from 8 Nov

Money	●●● ○ ○	Work	●●●● ○
Love	●●●● ○	Energy	●● ○ ○ ○

Make it and show it

The Maker on top and a Money star below: what you make can earn, if you pick one thing. The Pig half-joins your day branch, so home feels easy.

✓ **Do:** Put your best work of the year into a portfolio or CV.

✗ **Avoid:** Starting several new things at once because they all look promising.

Rule · Expression stars (食傷): a month to show your work; Money stars (財) arrive, but a gentle core sign has to work hard to hold them.

SAMPLE

December

壬子 · from 8 Dec

Money	●●●○○	Work	●●●○○
Love	●●●○○	Energy	●●○○○

Quiet build

Two Money stars and a tension with your day branch: Peach Blossom brings charm, and the Rat's tension with your day branch brings some friction. Close the year gently.

✓ **Do:** Tidy up what already works and set one goal for 2028.

✕ **Avoid:** Chasing every end-of-year offer or sale.

Rule · Money stars (財) arrive, but a gentle core sign has to work hard to hold them; 子 and 卯 make a tension (刑).

Rule · Each solar month has its own pillar (月建); it is read against your core sign with the Ten Gods (十神) and against your day branch with the branch relations (合·沖·刑·害).

YOUR GIFT

May, June and July all carry Fire, your useful element, one after another.

Rule · The 巳, 午 and 未 months carry your useful element (Fire).

YOUR TRAP

February to April ask a lot of a gentle core: push through them as if they were July and you may reach summer tired. September asks the same care.

Rule · Lowest energy levels in 壬寅, 癸卯, 甲辰 and 己酉: a gentle core sign spends energy on those months' demands.

TRY THIS

Mark 8 July in your calendar now as the start of your best month, and plan backwards from it.

Rule · Best month = 丁未 (July), starting about 8 July.

往

Your past, checked

These three years carry traditional markers of change in your chart. They are questions, not claims. If none of them rings true, that is useful too.

2009
age 15
己丑

Around 2009, when you were 15, did something change the direction you were heading: a new school, a new city, or a new way of seeing yourself?

That year a new ten-year chapter, 庚午, began.

Rule · A new ten-year chapter (庚午) began, traditionally a year when the direction of life turns.

2019
age 25
己亥

Around 2019, at 25, did you start standing more on your own: a move, a new job, or a decision you made without asking anyone?

Your current chapter, 己巳, began, with the same character as your core sign on top.

Rule · A new ten-year chapter (己巳) began, traditionally a year when the direction of life turns.

SAMPLE

2024
age 30
甲辰

In 2024, at 30, did a strong new tie or commitment come into your life: a partner, a team, a contract, or a promise to yourself?

The year's upper character 甲 paired with your core sign 己.

Rule · The year's upper character 甲 paired with your core sign 己 (天干合), traditionally a year of a strong new tie or commitment.

YOUR GIFT

If any of these ring true, you have lived through a chapter turn before, and you can plan for the next one in 2029 with that memory. If none do, the 2029 turn is still worth marking.

Rule · Two past ten-year transitions (2009, 2019); next chapter 戊辰 in 2029.

YOUR TRAP

If a chapter did turn for you in 2009 or 2019, you may remember what ended before what began. If neither year rings true, that is fine: the chart only marks them as turning points.

Rule · A new ten-year chapter began in 2009 (庚午) and 2019 (己巳), traditionally years when the direction of life turns.

TRY THIS

Next to each year, write one line about what you gained. Keep it with this Scroll.

Rule · The three marked years: 2009, 2019, 2024.

You and Daniel

合

You asked about Daniel. His core sign is 丁, Yin Fire, “The Candle Flame”. His birth time is unknown, so we read six of his characters.

己

Maya

The Garden Soil

丁

Daniel

The Candle Flame

Hearth & Clay: his warmth feeds your ground

Fire feeds Earth. Daniel tends to be the warmth and you the ground it settles into: you may feel more like yourself around him, and he may feel useful around you.

Rule · One core sign feeds the other in the five-element cycle (相生): support flows naturally (+10).

His core sign 丁 is the same character as the Fire in your hour pillar, so the warmth he brings is exactly the element that balances you.

Rule · Their chart has one Fire, your useful element (+3).

You give back what he needs most. His useful element is Wood, and you hold three Wood, including the two Rabbits. In daily life that can look like you giving him direction, plans and a reason to grow.

Rule · Your chart has 3 of their useful element (Wood) (+6).

Your day branches, the Rabbit and the Ox, make no harmony and no clash, and his chart, like yours, reads as gentle. Home life is what you make it,

SAMPLE

and neither of you should be the other's only support.

Rule · Day-branch relation 卯–丑: none; both core signs read as gentle (身弱).

How the score is counted

Core signs alone: 84. With both whole charts: 79.

Starting point	**60**
One core sign feeds the other in the five-element cycle (相生): support flows naturally.	**+10**
Their chart has one Fire, your useful element.	**+3**
Your chart has 3 of their useful element (Wood): you bring what balances them.	**+6**
Total	**79**

Rule · Compatibility (궁합) points: core-sign relation, day-branch relation (the partner spot), year-branch relation and whether each chart holds the other's useful element. Same two charts, same score.

YOUR GIFT

Daniel brings more of the Fire you have only one of, and you bring the Wood he needs: a two-way exchange.

Rule · Each chart holds the other's useful element (+3, +6).

YOUR TRAP

Because he feeds you, you may let him carry the warmth while you carry all the plans. Both jobs can be shared.

Rule · Fire feeds Earth (相生); you hold his useful element, Wood.

TRY THIS

This month, let Daniel plan one evening from start to finish, and simply enjoy it.

Rule · One core sign feeds the other (相生): let support flow both ways.

6

Your questions

問

You asked three questions. The chart shows tendencies and timing, not certainties.

Should I go back to school for a master's degree next year?

The chart cannot decide this for you, but it reads 2027 as a year that supports study. The top character of 2027 is Fire, your useful element, as the Hermit-Scholar, a Support star. In saju, Support stars stand for study, teachers and qualifications, and for a gentle core sign like yours they are the backing you grow on. Your chart also links study and income (the 壬丁 harmony), so a degree that leads to better work fits it. The strongest stretch is May to July, three Fire months in a row; the chart favours applying or starting then rather than in February to April, when energy runs low. Choose a programme you can finish. Fees and the choice of school are real-world decisions: talk them through with someone who knows the field.

Rule · 2027 丁 = Hermit-Scholar (偏印) and useful element Fire; Upper harmony 壬丁 (合); 巳·午·未 months carry Fire.

Is 2027 a good year to move to a new city?

Movement is written into your chart: the Travelling Horse sits in your month pillar, so moves and new places tend to keep coming up for you. 2027 itself warms your home spot: its Goat half-joins the Rabbit in your day pillar, so whatever you decide, close ties tend to feel easy this year. If you do move, the chart points away from September, when the Rooster

SAMPLE

clashes your home spot, and toward the warm months of May to July. A middle path: use the spring to visit and test the new city, and decide in June, a warm and balanced month, so July stays free for your studies.

Rule · Travelling Horse (驛馬) in the month pillar; 2027 未 half-joins 卯 (半合); 酉 clashes 卯 (沖) in September.

How can I stop overworking?

Your chart shows why it happens. Your core sign is gentle, and the Challenger sits both under you and in your hour pillar: people with this pattern tend to meet pressure by working harder, because pressure is where they grow. The fix the chart points to is not less ambition but more Fire: warmth, rest, and people who back you. In practice, put recovery in your calendar the way you put meetings, especially in February to April and in September 2027, when your energy level is lowest. Keep a regular evening for someone who warms you up. And when a new request arrives, sleep on it before you say yes.

Rule · Gentle core sign + the Challenger (七殺) in the day and hour pillars; useful element Fire; lowest energy in 壬寅, 癸卯, 甲辰 and 己酉.

YOUR GIFT

Your three questions point to growth that lasts: learning, a place, a pace.

Rule · 殺印相生: the Challenger fed into a Support star.

YOUR TRAP

You asked how to work less and also about adding a degree. Both can be true, just not at full speed at once.

Rule · Gentle core sign: Support stars (印) back a core sign that needs backing.

TRY THIS

Give July to the master's, and use June for the move decision.

Rule · Best month = 丁未 (July).

SAMPLE

Maya, you are garden soil with two Rabbits pressing on you and one candle to keep you warm. The chart reads 2027 as the year that candle gets company. Let people help, give July to the master's, and let the pressure keep turning into skill.
